## ABOUT THE SEMINAR

**Agriculture and rural development form the foundation of India's socio-economic progress and are central to achieving the national vision of Viksit Bharat 2047. As India approaches 100 years of independence, there is an urgent need to strengthen agricultural productivity, promote sustainable rural livelihoods, and ensure inclusive and technology-driven development.**

**This national seminar aims to provide a comprehensive platform for academicians, scientists, policymakers, practitioners, and young scholars to deliberate on innovative strategies, policy reforms, and sustainable practices that can transform agriculture and rural India into a resilient and globally competitive ecosystem.**

- **To analyse the role of agriculture including horticulture and animal husbandry in realizing India's development vision for 2047**
- **To deliberate on policy reforms and institutional frameworks for rural development**
- **To explore technological and engineering innovations in agriculture, horticulture, animal husbandry and allied sectors**
- **To promote climate-resilient and sustainable farming practices**
- **To identify challenges related to markets, finance, and infrastructure**
- **To develop policy-oriented recommendations for stakeholders**

## SUB-THEMES

- **Policy Roadmap for Agriculture and Rural Development**
- **Climate-Smart Agriculture and Environmental Sustainability**
- **Digital Agriculture: AI, IoT, GIS, Drones, and Precision Farming**
- **Agri-Entrepreneurship, Start-ups, FPOs, and Cooperatives**
